# Eastern Partnership Regional Workshop on Sustainable Public Procurement and eco-labelling

Action implemented by:

Funded by  
the European Union

**EU4Environment**  
Green Economy in Eastern Partner Countries

## Regional workshop objectives

The regional workshop will highlight the key achievements in Sustainable Public Procurement (SPP) and eco-labelling in the EU4Environment beneficiary countries, discuss the challenges and main lessons learnt, as well as the continuity of this work beyond the EU4Environment project.

The workshop will:

- Highlight key achievements on SPP and eco-labelling in the EU4Environment project countries in the period 2019-2023;
- Present case studies on SPP and eco-labelling from EU member states and from the EaP region;
- Discuss challenges and lessons learned in promoting SPP and eco-labelling in the EaP region;
- Identify national and regional stakeholders, networks and/or mechanisms for continued promotion of SPP and eco-labelling in EaP countries beyond EU4Environment.

EU4Environment Action, funded by the European Union, aims to support Armenia, Azerbaijan, Georgia, the Republic of Moldova and Ukraine to preserve and better use their natural capital, increase people's environmental well-being, and grasp new development opportunities.

The workshop is co-organized by the European Commission and UNEP (EU4Environment implementing partner) and is financed by the EU "European Union for Environment" (EU4Environment) Project.
